A T the greaterial of Agricultural Implements in Nash ville on the 4th, 5th and 6th of June, 1856, THE "EXCELSION CORN CORNILL" WAS AWARD ED THE HIGHEST PREMIUM. as will appear from the following extract from the report of the committee. They say—
"Of Corn and Cob Crushers there were 5 entries, bu-in consequence of some accidental breakage, only two

nade trials.

1. Execusion by J. C. Baldwin (Leavitt's Paleut.)

2. Joyce's Star Mill, by B. S. Weller, Little Glant, by O. H. Anderson.

Both these Crushers are constructed on similar mechani-

cal principles, and see about the same power; but its judges gave the premium to Baldwin's Mill. It seemed to have more capacity in a given time, but its chief superiori ty consists in its having movemble rings, which constitute the grinding surface, and of course the wearing surface There grinding surfaces are cast iron, and can be renewed readily and at little cost. This gives more dura bility for less money."

The above Mill, for Crushing Corn and flobs, or gried The above alli, for Crushing Corn and toba, or gried ing meal for amily use is furnished all complete, with two pair of grinding rings which makes it equal to am miles, at the low price of \$50,00.

FARMERS AND STOCK RAISERS.

Loffer you a Gern and Gob Mill unsurpassed in the Grace, and which cannot be supercashed by pass or fathers inventions. It is the cery Mill which every Farmer and Stock hanser should have; it will crush from a to to bencheds Corn and Cob per hour, with one horse, is easily fitted to and managed, weighs 340 lbs, and as all centact of the grinding surfaces is prevented, will find any farmer an ordinary lifetime. I speak thus of its derability because the same principle has been fairly usuad in the old Bark Hill. Who is it that wants
